## CONTRIVER COMPANY PROFILE

# CONTRIVER

### Vision:

We envision in reaching out to each and every individual across the country by providing top-notch consumer products, professional training and technical solutions, within the year 2025.

### Mission:

To make our nation a minimum polluted country with more green and sustainable energy that can cater the needs of every class of the society.

To teach the industrial or real-time engineering to cultivate the best organizational behaviour.

To enrich the value of traditional nutritious food of our country and eradicate the health issues caused by preserved foods and oils.

To construct economical, ergonomically, robust buildings to the middle-class society of the nation.

To provide every class of people with best in class household service.

### Company History

When one of the founder Mr. Sanjay clearly understood the real-time complication that the consumers are facing in these fields of Food, Health, Education, Agriculture, Fitness, Construction, Engineering, Fashion, Record Producing and On Demand Services, he immediately wanted to find a solution for these problems.

The founder of Contriver wanted to create a community for the young people who are the future pillars of the nation.

## CONTRIVER COMPANY PROFILE

### The Beginning of **CONTRIVER**

The journey of the educational sector of the firm then started on 07-Oct-2017 in Vidyavardhaka College of engineering, Mysore by conducting a 12 days' Workshop on "Professional Designing" for 5<sup>th</sup> and 7<sup>th</sup> Semester students.

## CONTRIVER COMPANY PROFILE

### Start up Karnataka:

CONTRIVER was certified by start-up Karnataka, an initiative by Government of Karnataka in the month of September-2019

### Events:

In the month of July CONTRIVER started a first step towards a green environment and make the earth a better place again so, organized an event called “The Green Event” in the home town of CONTRIVER. We planted 120 seedlings in two public parks of the town Nanjangud.

## CONTRIVER COMPANY PROFILE

### Eco Friendly Ganesha

To eradicate pollution during festival and to protect the environment, we have come up with an Eco-friendly Ganesha Puja kit which will help devotees go green by converting the idols after Visarjan into plants.

Mechanical:

Products:

Sheet metal parts.

## CONTRIVER COMPANY PROFILE

Contriver 's Manufacturing plant in thandavapura industrial area is also a job shop manufacturing industry. We manufacture custom made closets, electrical panels and many more sheet metal products.

A Hypertherm made CNC plasma cutter with digicut nozzle is used to cut the sheets into a proper size and then further process.

## CONTRIVER COMPANY PROFILE

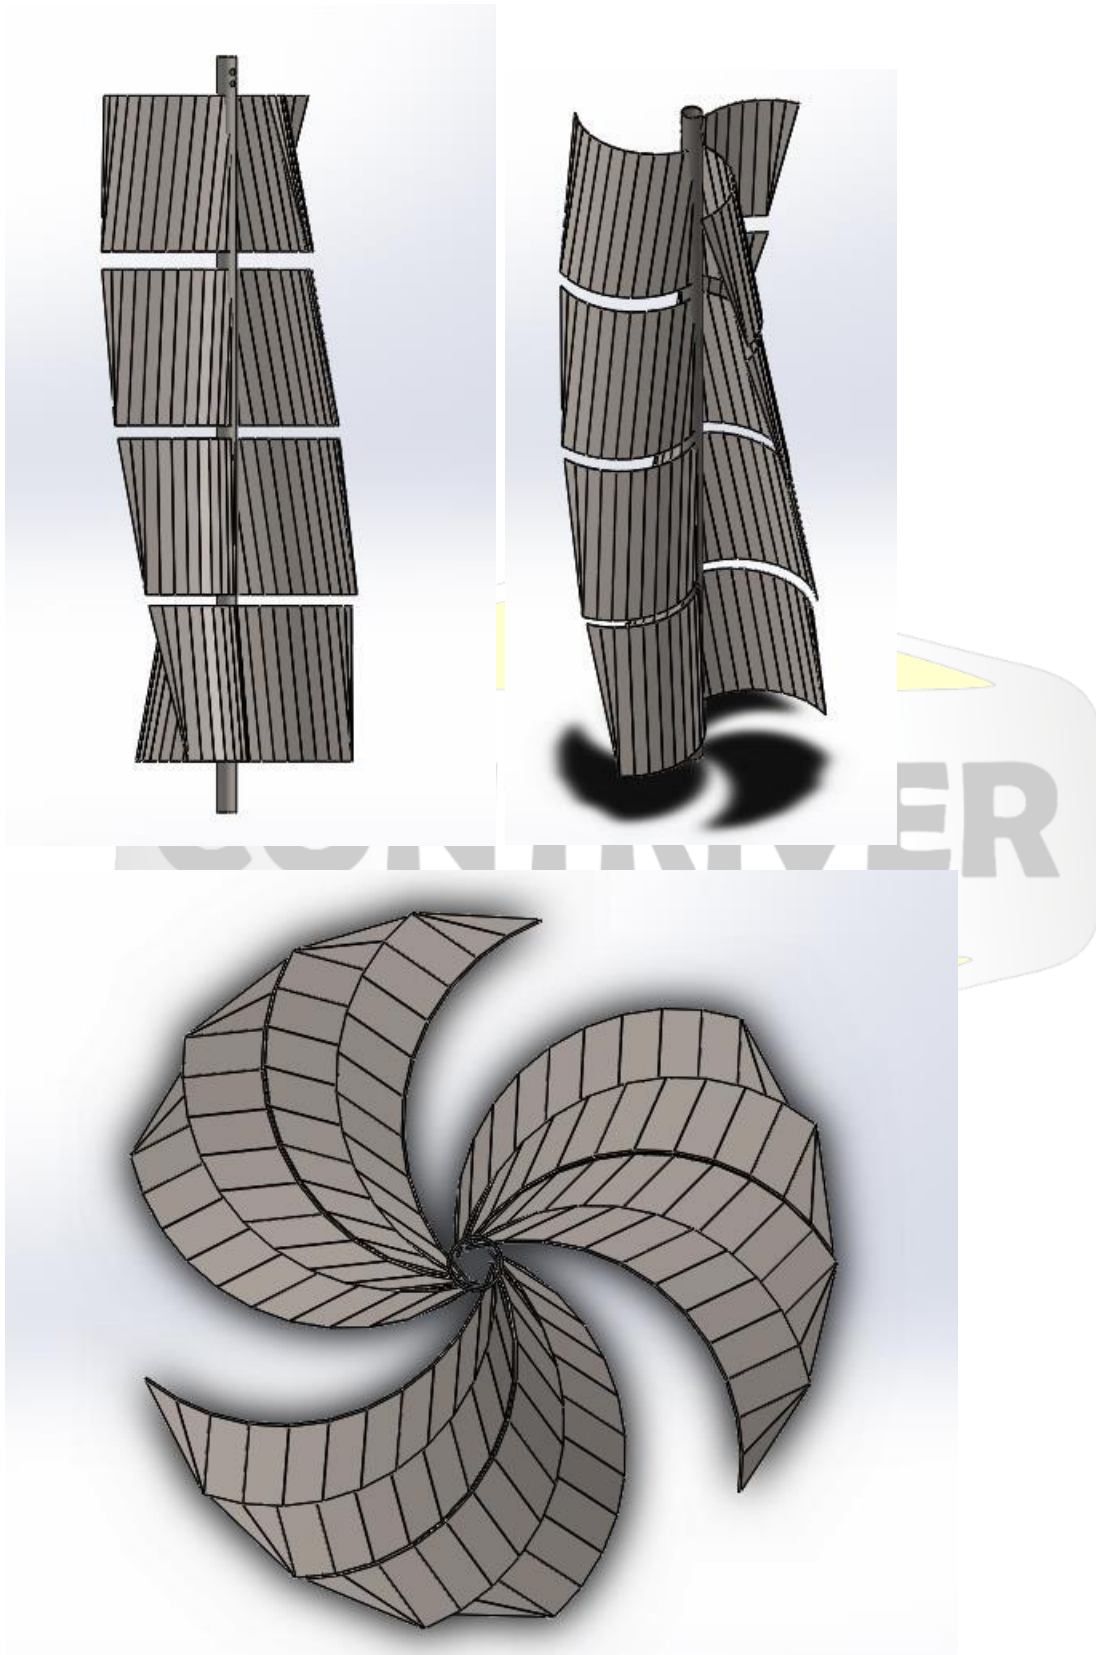

A Hydraulic sheet metal bending machine is used for bending the sheets into required shape and size. The metal joints are spot welded and then transported for JAGUAR furniture Mysore for power coating and then transported to many retail shops and residences.

Energy engineering components.

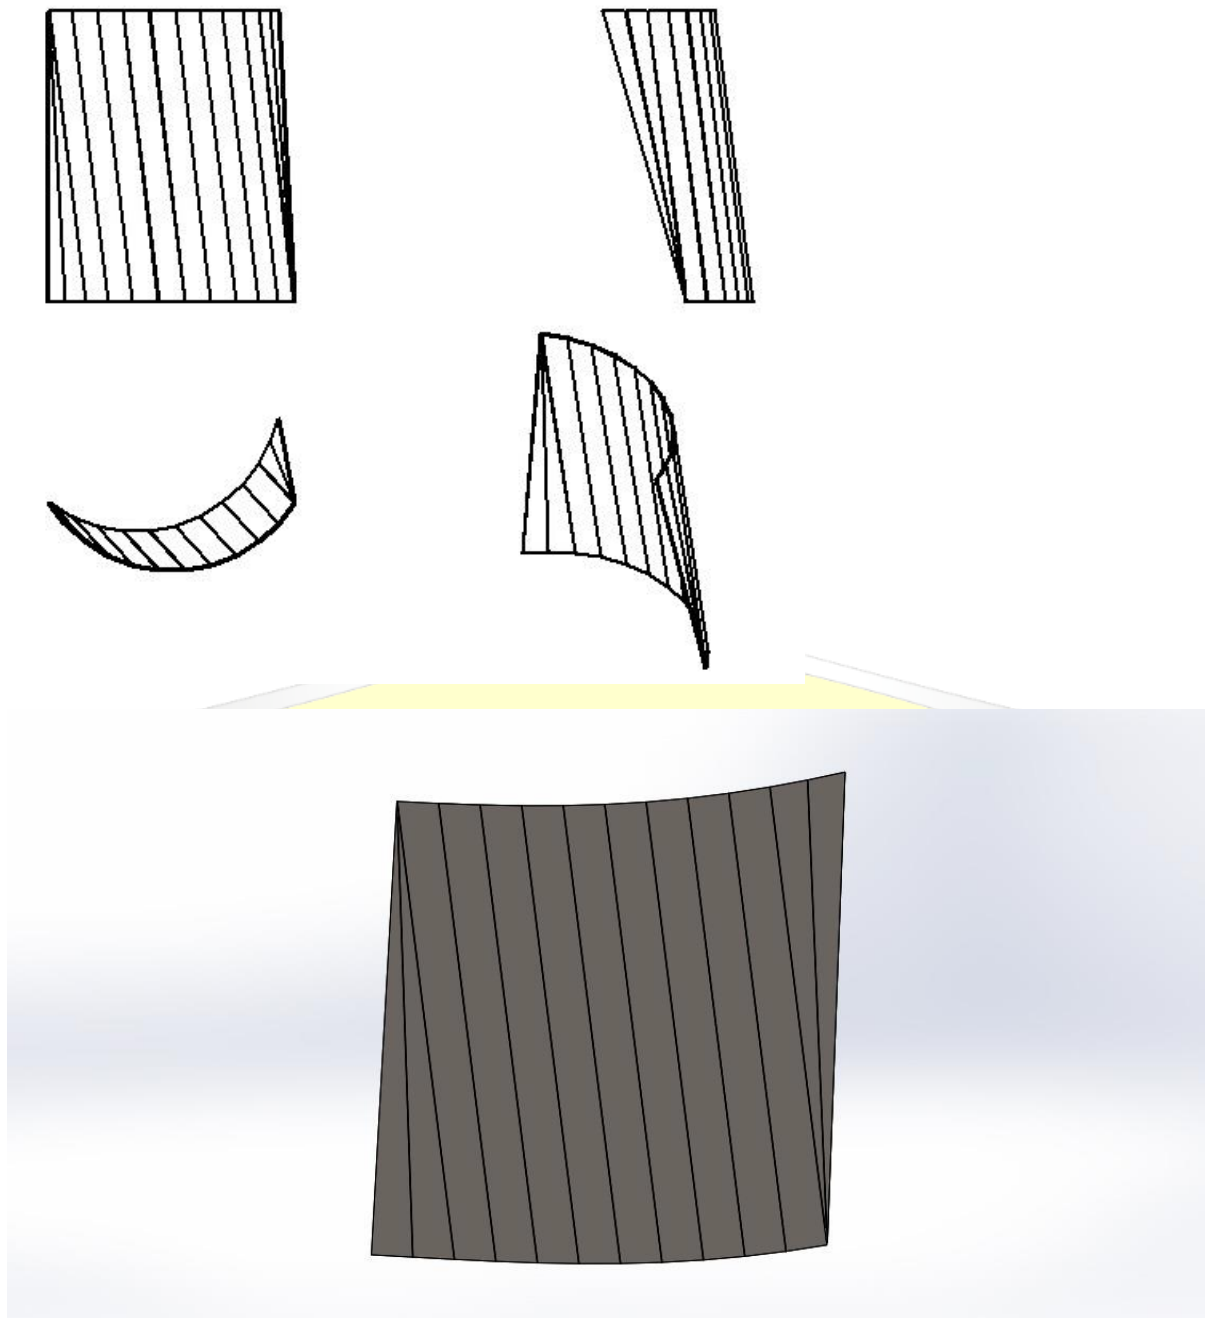

## CONTRIVER COMPANY PROFILE

Savonius wind turbine setup used in highways dividers.

## CONTRIVER COMPANY PROFILE

The profile and the setup of the above project is being patented and has been approved for manufacturing 10,000 units in Make in India initiative and is one the main core project of Contriver in the MSME registration.

Water turbine used in river to harness power in low velocity flow of water:

## CONTRIVER COMPANY PROFILE

The profile and the setup of the above project is being patented and has been approved for manufacturing 5,000 units in Make in India initiative and is one of the main core projects of Contriver in the MSME registration. It is used in the river where flow of the water is less than 10 KM/HR.

## CONTRIVER COMPANY PROFILE

ATV (custom made All-Terrain Vehicles).

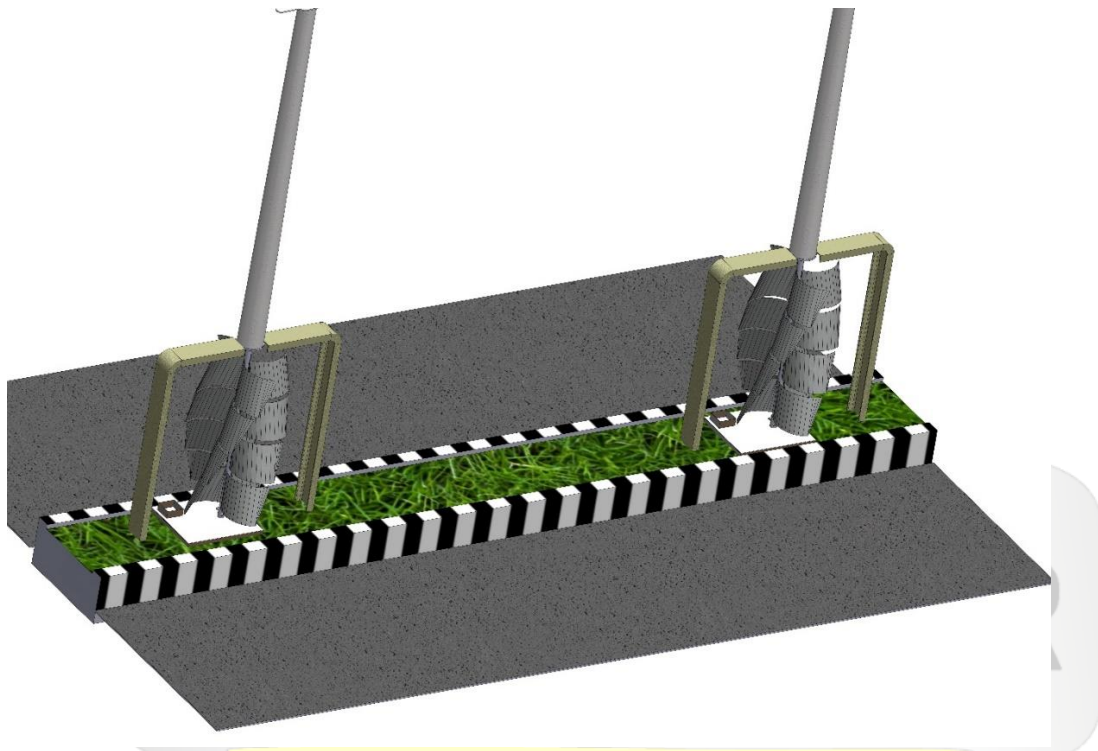

Contriver is also mentoring two ATV racing teams in Mysuru and have fabricated a complete ATV for the ATME college of Engineering. The team captain of the ATV team in Vidyavardhaka college of Engineering is also hired as an employee of Contriver for his achievement.

## CONTRIVER COMPANY PROFILE

Computer Science and Electronics:

Products:

Wind turbine setup used in highways dividers:

The wind turbine which is placed on the divider of the highways will generate power relative to the movement of the vehicles. We use Machine learning and data mining algorithms to monitor the traffic density on the highways and calculate the power that can be generated by the VAWT's installed. This output power is fed to the bio digester.

Bio digester:

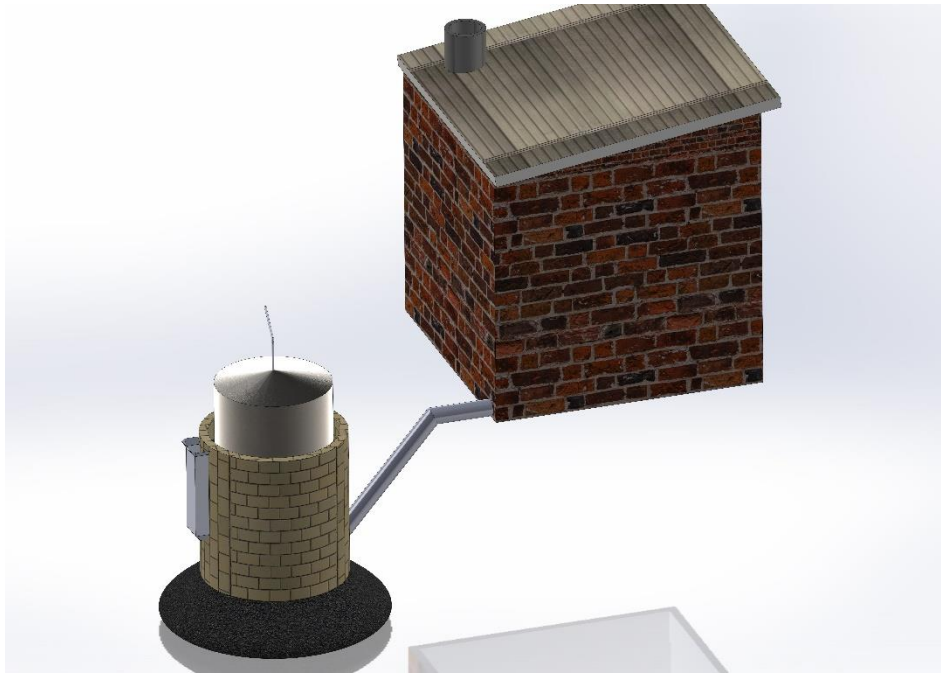

The Bio digester stirrer is powered by the highway wind turbines, slurry components will be added each day automatically by calculating the respective traffic density and the power generated by the wind turbines.

In total, twenty-five different sensors are used to monitor the humidity, temperature, pressure, heat and gasses in the digester. Any undesirable spike in the parameters will automatically cut-off the entire digester system and also alerts the supervisor to make the necessary changes in the quantity of the slurry

## CONTRIVER COMPANY PROFILE

that is used in the digester. With the application of cloud computing, IoT and embedded systems, the entire process could be automated.

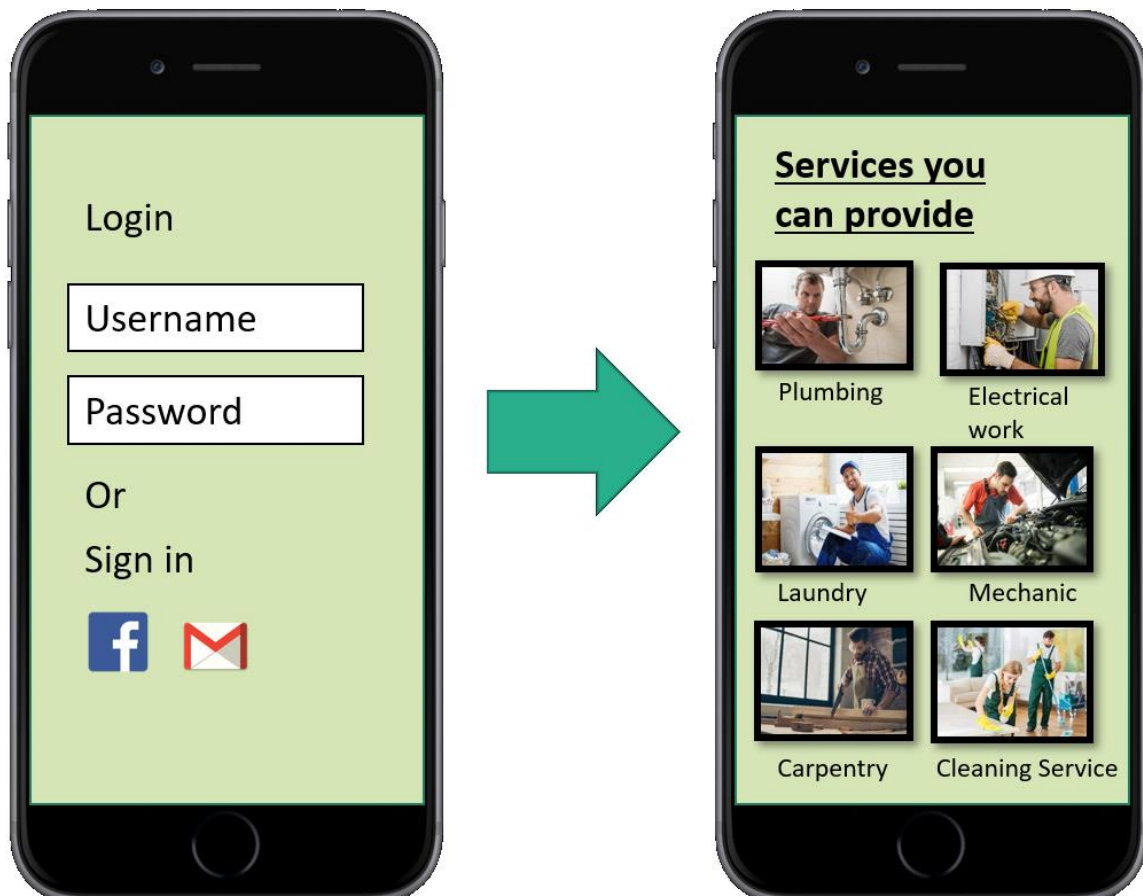

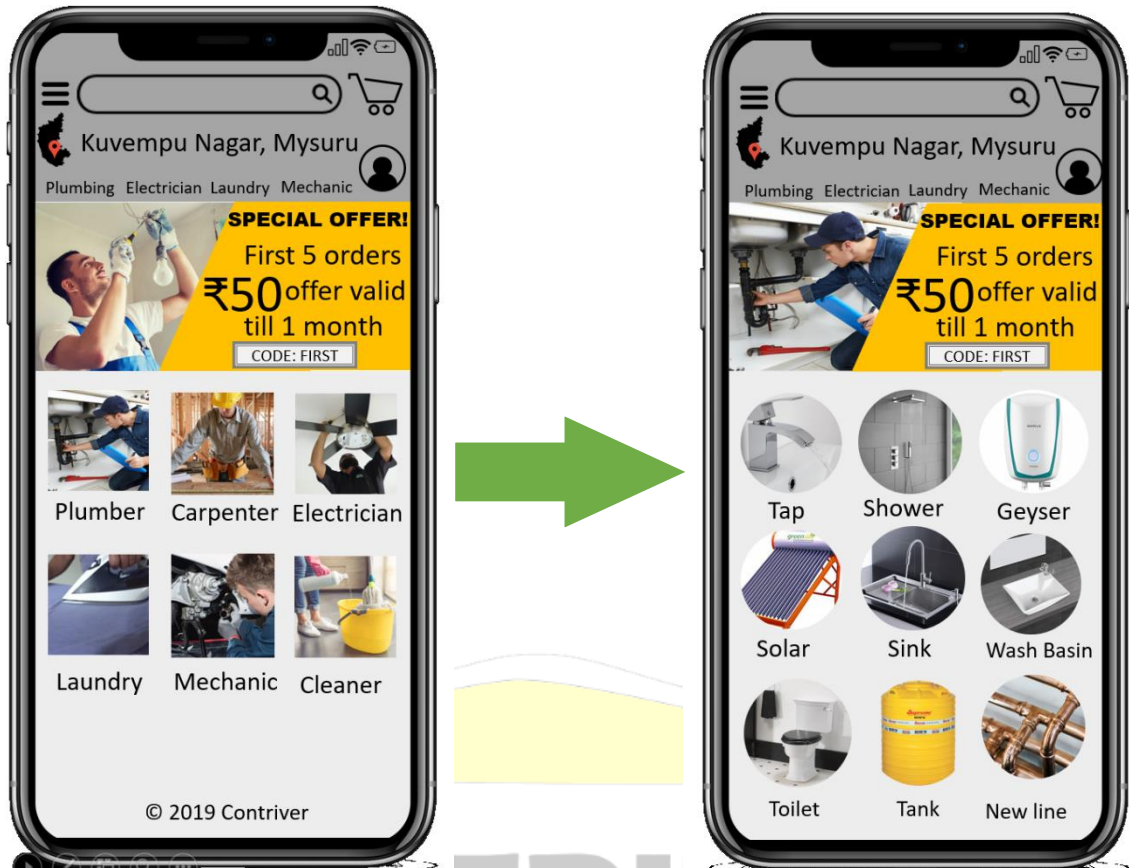

### E-Commerce:

Contriver is developing an E-commerce application for phones, a residential on demand service which will be launched in the month of January 2021, which uses the applications and algorithms of the domains, Machine learning, Data mining and Cascading Style Sheets. The user data is stored and fetched by the server in cloud by the application or the website.

The application is developed using angular and android app development and will be available on iOS and android soon in the month of March of 2021.

Services:

### **Workshops.**

We train students and graduates in our workshop programme, with practical examples, with complete hands-on experience.

We, as young Entrepreneurs, understand that the current courses in the academia is not par with the current technological requirements.

The goal of our programme is to cater the knowledge that is expected from the industries.

### **Annual maintenance.**

We undertake AMC projects which is annual maintenance of Computer systems, Networking, Mechanical machines and Machine-tools.

Complete NC & CNC Machines programming and Servicing.

### **Delivagoo.**

The delivery wagon delivering freshly prepared homemade food for school children and office employees. A delivery food truck will be carrying the lunch boxes from their respective homes to the schools and offices of the individuals. The rider can be tracked via an application installed in the consumers mobile phones.
